- 2) Children who satisfy both of the following tests:

Test 1: They are distinguished from the great majority of other applicants either on medical grounds which are supported by a medical report (provided at the point of application), obtained by parents, specifying the medical advantage of the child attending the preferred school. Exceptional circumstances must relate to the choice of the school and the individual child. (i.e. the circumstances of the child, not the economic or social circumstances of the parent); and

Test 2: They would suffer hardship if they were unable to attend the school.

- 3) Pupils who would in the first year, to which the application relates, have an elder brother or sister in attendance at the school.
- 4) Pupils living within the catchment area of the school.
- 5) Other pupils arranged in order of priority according to how near their home addresses are to the main gate of the school, determined by a straight-line measurement as calculated using the Local Authority's Geographical Information System.
